

**Sherry Hannam**  
**Parent – Sirius Academy West**

I am a parent of a current student at Sirius Academy West with SEN and school related challenges.

I have a 20+ year career working across a variety of educational establishments within and in collaboration with secondary schools, apprenticeship providers, FE and 6<sup>th</sup> form colleges and universities, working predominantly to improve student progression, experience, service and support at both an operational and strategic level.

I am delighted to have the opportunity to engage with the Local Advisory Board at Sirius Academy West to represent the views of all parents with an additional focus of raising the views of parents of SEN students at the Academy and help their voice to be heard.
